

ALIENS ELITE Handovers started in June 2008

Hi-tech city, Miyapur, Hyderabad

Aliens Elite at Miyapur is nearing completion, with the first round of handovers going on currently. We follow a very professional handover procedure. Our in-house handover team is the customer within the organization, which inspects the completed flats from the customer's point of view before calling the customer for handover. Once the handover team is fully satisfied with the finishing, then the customer is invited to visit the 'Quality Checked' flat.

Phase I of the project houses 240 premium apartments, while Phase II has 75. Aliens is also laying the access sub-roads leading to the project from the main Mumbai Highway. 20 flats have already been handed over to their proud owners, and the amenities are coming up well. The Aliens Elite Supermart is a star point in this gated community, and encompasses 10,000 sft of prime commercial space, which will house top brands in retail.

ALIENS ELITE Handovers started in June 2008

ALIENS VALLEY Handovers started in July 2008
