

MD's Message

Dear Aliens Customers,

It gives me immense pleasure to announce the release of the first edition of our newsletter 'Aliens Space'. This newsletter is another initiative in our constant efforts to enhance customer communication. Through our quarterly newsletters, we will share with you the progress of our projects, fresh developments in the organization, and trends in the real estate industry.

The highlight of this quarter was indeed the landmark HUDA approval to our 30 floor project Space Station.1 Tellapur. This is the first time in the history of Andhra Pradesh that a residential project has got HUDA's approval for construction of 30 floors.

In this inaugural issue of our newsletter, we share with you the latest report on the real estate sector in India, which shows why this is the right time to buy your new home. Asia being the new growth engine of the world, and India witnessing unprecedented urbanization, certainly augurs well for the real estate sector.

Aliens Group also participated in international property fairs in Dubai and USA, and our stalls evoked significant interest and response due to the futuristic designs and features of our projects.

I hope you'll enjoy reading our newsletter, and keenly solicit any feedback you may like to share with us.

Warm Regards,

Hari Challa

Managing Director

Aliens Group

JMD's Message

Dear fellow members of the Aliens family,

I am happy to announce that Aliens Elite is nearing completion and a couple of blocks are already being handed over to customers. The way its shaping up, gives us immense satisfaction and motivates us to go further in our vision of bringing about an 'Urban Revolution'. We are overwhelmed by the response that Space Station.1 is evoking, thanks to its unparalleled automation features and amenities; and we are committed to delivering a world-class project. A lot of effort is going into the detailing of the project design and plans, along with our team of international consultants across the globe. As a young and effervescent organization, we are guided by our imagination, and are determined at changing our country's skyline with our innovative designs. I thank all our customers for their continued support in realizing our vision.

Warm Regards,

Venkat Challa

Joint Managing Director

Aliens Group
