APARTMENTS OF DISTINCTION

Can there be class without value? We believe not. 'Lifestyle Elite' extends to not just your apartment but also to life around it. Blending the modern with the utilitarian, Elite is unique in its design and contemporary in its outlook with staggered apartment designs overlooking the central courtyard. Spacious entrances for cross ventilation and only four apartments per floor ensure the residents can enjoy greater privacy and the comfort of an individual house.

Open interiors, slick exteriors, sophisticated facilities, abundant landscaping, and imaginative social and recreational spaces makes Elite an unparalleled lifestyle statement. As Elite not just stands for its ample opportunities to give its resident next generation high, but also speaks volumes about their savoir-faire, style and preference to be a cosmopolite.

Quality; the wise
choice of many
alternatives

- Property investment management
- Intermediate maintenance of property before renting
- Support during breakdown of amenities/ facilities or any other property maintenance concern

CORPUS FUND

Five years down the line and Elite looks as good as new. As a part of our value package, the management of the entire property Elite is done by a corpus fund. The amount collected via corpus fund ensures lifelong running maintenance generation against the traditional monthly maintenance collection. It is a one-time amount collected from every buyer to maintain, upkeep, improvise, repair and monitor the life of Elite's apartments and the community. An individual body will exist to administer the corpus fund and in case of any deficit a supporting amount would be raised by this body through revenue generating mechanisms like telecom tower renting, billboards or any other channel suitable.

How does the Corpus Fund work?

In a typical scenario, the residents of an apartment usually pay a certain amount as monthly maintenance. This monthly maintenance collected at the beginning of each month is used for maintaining and upkeep of the apartment community. However, at Elite, we end the conventional monthly maintenance hassle and introduce the concept of Corpus Fund to our customers. The Corpus Fund is a one-time amount raised per square foot at the time of purchase from each of our buyers. The fund collected is utilised to ensure smooth operation of the utilities, security services, building maintenance, landscape and ground maintenance, and other necessary expenses arising. Being a one-time amount collection, it also eliminates the possibility of any added burden on the buyer in any form of payments arising in due course of time due to inflation or increased expenses towards property maintenance.

Benefits:

- Professional property management services
- Hospitality standards of a five star hotel
- Enhanced lifestyle standards
- End to monthly maintenance cycle
- Society monitoring services
- Perpetual value addition of the community life

AMENITIES/ FACILITIES SPECIFICATIONS:

Indoor:

AN OUTSTANDING REPUTATION

Property development just doesn't happen. It begins with courage and conviction to challenge the conventional wisdom and balance the same with excellence and expertise. It was this forethought that laid the foundation and genesis of Aliens group. Since its inception in 2003, the group has come a long way in redefining the cityscape of Hyderabad with its passion for innovation and imagination in developing of apartments, townships, community living and other large-scale building activities.

As a young and dynamic organisation, Aliens group believes that thinking differently plays a large role in revolutionising property development and constructing of what we call- 'intelligent living spaces'. Being the pioneers of innovative real estate development in Hyderabad, we believe in delivering comprehensive, integrated, value-generating assets to address the changing needs of customer satisfaction in modern day living.

Our vision of futuristic experience allows us to bridge the gap between technology and people in all our developments. If yesterday's benchmarks are today's minimum standards, Aliens group surpasses this norm by creating tomorrow's experiences in today's projects where technological innovation is one part of the equation, global standards of quality and service is the other.
